

NORDIC CANCER UNION GRANT

The Nordic Cancer Union (NCU) provides funding to support and stimulate collaborative cancer research within the Nordic countries. Researchers working in two Nordic countries or more must be involved in the project. The research projects must have cancer relevance, be uniquely suited to be carried out within the Nordic countries, and the effect of collaboration should be synergistic.

Grants are provided for one year. Further support for the project will require new applications. As a general rule, project funding can only be renewed twice; a project can obtain funding from NCU for a total of maximum three years. We recommend that researchers who have received grants for three years or more for the same project put forward applications for new (different) projects. Evaluation is made by a Nordic scientific committee.

Application deadline

September 1st, 2012

Guidelines

Before starting the application process, the applicant is obligated to read the NCU's guidelines for the application for and allocation process of NCU research grants in 2012. This information is found at our website. Our website specifies, among other things, guidelines for completion, requirements for various attachments, as well as conditions and obligations by allocation of NCU Grant.

You can apply for the NCU Grant [here](#)
